

# Light And Truth

c 2011 Simon Daniels

Don't let anybody say that you can't find a way inside your heart and soul  
Time is always on your side it's like a guiding light  
That shines and brings you home  
But don't be sorry for it all  
There is nothing here but joy

(CHORUS)

**Hold love - in times when we all need love**  
**In times when we believe love**  
**Is gonna pull us through**  
**Now you show the way Lord**  
**Recognize the faith Lord**  
Will you show the way of Light and Truth

**Show the way of light...**

It takes just one small Prayer  
And you will find love there,  
**Everyday in every way**  
If you give yourself a chance  
At times we all need help so reach out  
And let yourself be guided  
By God's own hand  
And you will find sunshine in the rain  
So dry your eyes and smile again

(Repeat CHORUS)

**Hold love, show us the way**

(Repeat CHORUS)

**Light and truth...**
